

COVID-19 Safety Protocols

Our SALON, SPA and BOUTIQUE are open at 25% Capacity.

Our spa and salon are operating with your safety and the safety of our staff as our first priority.

- There will only be one door at the front for entry, and the other will be used for exit to maintain physical distancing when arriving and leaving the building.
- Hand sanitizing and temperature check are required for all guests upon arrival. An alcohol spray and/or hand sanitizer station is set up at the entry of our building for all guests.
- Masks are mandatory and must be worn properly covering mouth and nose at all times in our building. Guests will be required to bring their own mask. Masks will be available for purchase if you do not have your own. Our staff will also be required to wear a mask at all times.
- We are unable to provide coat check, waiting area, magazines, or food/beverage services.
- Until restrictions are lifted please do not bring outside food or beverage to your appointment.
- Please attend your appointment alone. Only one family member can enter at a time.
- Pedicures: Due to capacity limitations, we do not have a waiting area for drying polish. Please remember flip flops or book a shellac polish so dry time is not required.
- Manicures: We request you pre-pay for services that require natural polish. Due to government guidelines, we do not have a waiting room for drying polish. We encourage you to book shellac manicures or be aware that you will have to dry your polish in your vehicle.
- For personal services to the face where the guest is unable to wear a non-medical mask (facials, hair removal), employees will wear a medical mask (surgical/procedural mask or N-95 or N-95 equivalent mask).
- All our Spa Staff are **Clean Touch Certified** and have completed The Principles for Enhanced Service Safety and Certification Program through Dermalogica Canada.
- Our boutique is sanitized regularly, is set up for physical distancing and our fitting rooms are open for your convenience.
- We will maintain an occupancy level to allow staff and customers to maintain a physical distance of at least two metres, except when receiving services or brief exchanges.
- All guests are asked to pre-screened using this tool: <https://sharedhealthmb.ca/covid19/screening-tool/>
This is to ensure you have not been out of province, sick, or in contact with someone who has been sick with COVID-19. Our staff are required to pre-screen before coming to work for your safety. Please read the screening questions before you come to Aevi.

- Guests and Employees must stay home when ill with COVID-19 symptoms.
- We are practicing physical distancing protocols, along with floor markings where services are offered or lines form. Our entry into the business, including lines and waiting areas, will be regulated by reception to prevent congestion.
- Workstations will be kept two metres apart or have dividers between them and will be sanitized between patrons.
- Washrooms will continue to have frequent sanitization.
- A plexiglass screen has been installed at our front desk for additional safety of our staff and guests.

The safety of our staff and guests is paramount, therefore compliance of these measures is required or service can be refused. Thank you everyone for your continued patience and support as we navigate through this. We are all doing our best to do this right and keep everyone safe.
